Scientific Name/Botanical Name

The scientific or botanical name for Sandalwood native to Tamil Nadu is *Santalum album*. This evergreen tree has been revered for its aromatic properties for thousands of years.

Oil Origin

Sandalwood oil is primarily sourced from the heartwood of the *Santalum album* tree. Native to the southern regions of India, particularly Tamil Nadu, these trees require decades to mature, ultimately yielding an essential oil that is as rare as it is revered.

Extraction

The extraction of sandalwood essential oil involves a meticulous steam distillation process. The heartwood and sometimes the roots are finely powdered and subjected to steam, ensuring that the volatile compounds that make Sandalwood oil so sought-after are preserved.

Characteristics

The beauty of Sandalwood oil lies in its myriad characteristics—from its subtle woody aroma to its captivating color.

Characteristics	Details
Odor	Sweet, woody, and creamy
Consistency	Thick and syrupy
Country of Origin	India (Tamil Nadu)
Evaporation	Slow, as a base note

Aroma

The aroma of Sandalwood oil is distinct and unforgettable. Its soft, sweet, woody fragrance has a mellow, earthy undertone that makes it particularly pleasing and versatile. The calming scent has been a cornerstone in both spiritual rituals and modern aromatherapy.

Constituents

Sandalwood oil is composed of sesquiterpenes, sesquiterpenols, and santalol. The primary component, santalol, accounts for 70-90% and is responsible for the oil's characteristic aroma and therapeutic benefits.

Blending and Uses

Sandalwood oil is a blending artist's dream, harmonizing well with a multitude of other essential oils. It serves as a foundation to heighten aromatic profiles:

- **Blends well with:** Bergamot, Jasmine, Lavender, Myrrh, Oakmoss, Patchouli, Rose, Vetiver, and Ylang-Ylang.

Safety

While Sandalwood oil is generally regarded as safe, it is potent and should be used with caution:

- Conduct a patch test before direct skin application.
- Pregnant women and those nursing should consult with a healthcare provider.
- Not recommended for internal use without expert guidance.
